

Backyard Pool Fun

Summer is heating up and the best way to stay cool is to jump in the water! One of my favorite pastimes when the temperatures climb is spending the day in and around the pool. In an attempt to remain forever young, I slather myself with SPF, slap on a hat and sunglasses and head outside. I also love a good float session on a raft, the sillier and over the top the float, the better! When the evening comes, it's time to enjoy a beverage and competitive game of tailgate golf. Summer is all about getting outside and enjoying the warm weather!

Perfect for toting all your essentials to and from the pool! They can easily be machine washed and come in many cute prints for you to choose from.
