

# Holiday Photo Outfit Inspiration for Her

Christmas card season is quickly approaching! It is the perfect time to take updated photos with your family. Typically, mom is hard at work looking for outfits for the kids and husband. That means often it comes down to the last minute for her own outfit! I have found some great options for outfits for her that would look good with any color scheme for photos.

This ruffle peplum top looks so festive in this shade of green!

I would pair it with either a black skirt or jeans plus heels. Add gold jewelry to dress it up a bit!

A stunning wine color paired with velvet makes this dress elegant and perfect for photos and the entire winter season! I think this would look amazing with a pair of classic pumps in black, gold or nude. Pair with large statement earrings for the wow factor!

Cream looks beautiful year round, but especially during the winter months. It's a perfect neutral that will complement any colors you choose to pair it with. Wear with jeans or size up to wear as a dress. Add faux leather leggings or joggers for a little edge! Add simple hoop earrings for a timeless look.

This red top is stunning with the ruffle sleeve detail. I would pair this with black or white skinny jeans and a pair of neutral booties. Then, add a pretty pair of gold

or silver earrings for a festive look!

Black is always flattering! Cardigan everything is big this year but especially in dress form. I love this option paired with a white bootie! Add a skinny leopard belt for a pop of interest and to accentuate your waist.
