With its expertly blended professional peels, NEOVA offers treatment options for all skin types, ethnicities, and conditions. NEOVA’s research and development, formulation, and authenticity—headed by in-house Ph.D. chemists—are approached universally. Because we prioritize skin health above all else, our ingredients are specifically chosen to restore and maintain skin in a healthy, homeostatic state. Our Story

Lafferty's Home Center is an award-winning appliance, furniture, and mattress retailer dedicated to bringing the latest industry innovations to the four-states area.

In 1971, Gilbert Lafferty worked in Louisiana's oil fields while offering appliance repair as a side job. His wife, Linda, managed the finances and their four children, Cathy, Deanna, Donna, and Mark. Seeking a full-time career in appliance repair, they returned to Texarkana, Texas. By 1977, Lafferty's expanded from repairs into retail sales, with Mark leading sales and Donna managing offices until her 2018 retirement.

In 1986, Lafferty's opened a 5,000-square-foot showroom on Summerhill Road, featuring an in-house repair shop and warehouse. Throughout the 1990s, the company modernized with computer-based systems and joined the AVB-BrandSource buying group, enhancing market competitiveness. In 2008, they unveiled a 47,000-square-foot home center, expanding into home furnishings. Today, Lafferty's offers over 15 appliance brands, six major furniture lines, and three mattress brands.

Mark's children also joined the business. Melyssa Lloyd leads the Service and Parts Department, Mason Lafferty oversees Sales, Delivery, Installation, and Marketing, while Miles Lafferty contributed to Technology Adaptation and Business Development before founding Lafferty Roofing and Construction.

What We Do

Lafferty's prioritizes customer service, reflected in our 4.9-star Google rating. Employees receive continuous training, ensuring expertise across sales, service, and installation. Sales associates are vendor-certified, while factory-trained technicians stay updated on appliance advancements. Customer service training further ensures exceptional experiences.

What We Offer

Lafferty's embraces digital advancements. In 2020, we introduced digital pricing tags, automatically updating to match competitors' prices. Our website chat and text features offer seamless communication. Additionally, our A.I. logistics system keeps clients informed about deliveries and service appointments.

On the furniture side, we offer high-quality brands, including La-Z-Boy, Mayo, and Mavin. Mavin's customizable hardwood furniture allows customers to design unique dining and bedroom pieces.

Our Future

Lafferty's future includes new partnerships, expanded product lines, and continuous innovation. We are committed to bringing fresh designs and trends, ensuring every shopping experience is exceptional!

Our Story

Lawn Doctor of Texarkana-Magnolia-Idabel is more than just a business—it's a local investment in the health and beauty of our community's lawns.

Owners Lorie and Jeff Walling, longtime believers in the Lawn Doctor approach, saw a need in our area for specialized, science-backed turf management.

Though many recognize the Lawn Doctor name, our business is not just another franchise—it is locally owned and personally operated by Jeff and Lorie, who are deeply rooted in the Texarkana area. Lorie, a fifth-generation Texarkanian, has strong family ties to this community. The Wallings live here, work here, and are dedicated to supporting local businesses, causes, and events. Before even making their first dollar, they had already donated time and resources to local fundraisers and community initiatives.

Our Difference

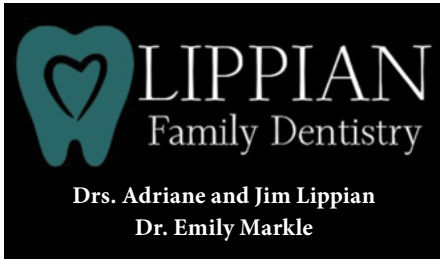

We are dedicated to science-driven lawn care and specialize in turf management, offering more than just basic lawn treatments. With an agronomist on

staff, we take a soil-based approach to customize care for each lawn, ensuring healthier, stronger grass. Our services go beyond fertilization and weed prevention. We provide soil testing, pH balancing, perimeter pest control, mosquito and fire ant treatments, liquid aeration, tree and shrub care, and more. With our 100% satisfaction guarantee, customers can trust that their lawns are in expert hands.

As a locally owned business with national support, we provide the best of both worlds—advanced resources, top-tier expertise, and the personalized service that only a hometown business can offer. When you choose Lawn Doctor of Texarkana-Magnolia-Idabel, you are not just getting a better lawn, you are supporting a business that is committed to growing a stronger community.

Our Story

At Professional Hearing Services we have been committed to providing high quality hearing healthcare to Texarkana for over 25 years. Founded in 1999, we have grown our practice to meet more needs of our community by adding 2 doctors of Audiology, Dr. Kelly Pack and more recently Dr. Stephanie Winfield. In doing so, we have been able to expand our practice to much more than just hearing tests and hearing aids. Since all our providers have a doctorate level education, we are able to provide cochlear implant evaluation and programming, tinnitus treatment and retraining and Dr. Pack's passion, hearing conservation and hearing protection.

Our Difference

Nobody ever really wants to wear a hearing aid. What they want is to be able

to communicate again with their loved ones, join in on the conversations, and easily participate in things they used to love to do. Our mission is simple, and that is to provide a hearing solution that is easy to use and accurately fit because a hearing aid is no good if it ends up in the bottom of a junk drawer.

By utilizing the latest technology, such as Real Ear Measurements, we can place microphones near your eardrum to precisely measure how the hearing aid is performing inside your ear canal. This eliminates all guesswork from the fitting process and ensures a proper fit, leaving you with crisp, clear sound. This technology not only helps you adapt more quickly to the devices but also reduces the amount of time you spend on return visits, allowing you to get back to doing the things you love—which is ultimately what life is all about!

Our Story

Wholesale Electric Supply Company has been a cornerstone in the electrical distribution industry since 1947. Founded in Texarkana, Texas, by Amos McCulloch, we built the company on the principles of strong relationships, exceptional service, and a commitment to quality. Today, under the leadership of President Buddy McCulloch and COO Chris McCulloch, those same values continue to drive us forward, making us a trusted partner for customers, employees, and vendors alike.

With over 80 locations across Texas, Arkansas, Louisiana, Oklahoma, Missouri, Tennessee, and Kansas, we have grown into a powerhouse in the industry, offering a wide range of electrical products and solutions while maintaining a personal, customer-focused approach. We take pride in recruiting top professionals in the field and providing them with a positive, growth-oriented work environment. By fostering strong, mutually beneficial relationships with our customers,

employees, and vendors, we continue to set the standard for excellence.

Our Difference

In a competitive industry, we distinguish ourselves through our commitment to service, product quality, and long-term partnerships. Our mission goes beyond simply distributing electrical supplies—we strive to be a trusted advisor and reliable resource for businesses of all sizes.

One key differentiator is our extensive inventory and diverse product offerings. We provide a comprehensive range of electrical supplies, including lighting, switchgear, wire and cable, conduit, safety technology, and energy-saving solutions. By maintaining a robust selection of products, we ensure that our customers can find everything they need in one place, streamlining procurement and reducing delays.

Our strong partnerships with leading manufacturers allow us to offer high-quality, industry-leading products

at competitive prices. This direct access to top-tier brands ensures our customers receive reliable and innovative solutions that enhance efficiency, safety, and cost-effectiveness.

Beyond our product selection, we are known for our superior service and logistical capabilities. With a vast distribution network, we guarantee timely deliveries and offer 24-hour emergency services to prevent costly downtime. Additionally, we provide vendor-managed inventory (V.M.I.) solutions, helping businesses maintain optimal stock levels and avoid supply chain disruptions.
